Pretty lady, I'll stand in your way  
For before you leave I have something to say  
I don't mean to lead you on to a living hell's coldness  
I just wanna feel another one of your kisses Remember  
the happy days gone by  
When you're in my world, I'm up in your sky  
And you can count on  
Nothing but the best  
Nothing but the best for my love  
She'll receive no less  
But nothing but the best for my love  
What you want is to run wild wild and free  
Yeah, you're all locked up and that may be life's only  
key  
I see you walkin' alone, you're lookin' so lonely  
I know inside that you cry, your heart feelin' empty  
Rosalie  
And little woman you'll feel fine  
Oooh, when you're teasing the world tonight  
And you can count on  
Nothing but the best  
Nothing but the best for my love  
She'll receive no less  
But nothing but the best for my love  
Nothing but the best  
But nothing but the best for my love  
Oh yeah, come over here baby  
Oooh, I gotta tell ya, tell ya I can't take no more  
I see that want in your eyes  
Move your hips like this! Nothing but the best  
Nothing but the best for my love  
She'll receive no less  
But nothing but the best for my love  
Nothing but the best  
Nothing but the best for my love  
She'll receive no less  
But nothing but the best, baby, for my love  
Nothing but the best, yeah  
Nothing but the best for my love  
Yeah!
