

James Michael **"Down"**

You've got to get me back to where I was when I began
I know your God is great
I know your God is good
My God just ran

And I could never take you on
Until you hear me on the radio
I'll tell you that I want to be down
I want to be down

Goodbye golden sun
I peirced my tongue
I'm high again
And I'm about to flow
So say "hello" my naked friend

And I could never take you on
Until you hear me on the radio
I'll tell you that I want to be down

And this will be my lullaby
When we collide

And I could never take you on
And I could never tell you "I was wrong"
Until you hear me on the radio
I'll tell you that I want to be down
