You have a sensitive side and I know
I've a history of pushing things a little too far
Together we just kind of put our heads down and say
"I'm OK with this if you are"

I am easily embarrassed
And you have the tendency to show me off wherever
we are
Together we just kind of put our heads down and say
"I'm OK with this if you are"

I am OK

You are carefully focused and I...
I've a habit of forgetting where the hell we are
Together we just kind of put our heads down and say
"I'm OK with this if you are"

I am OK

(If something's wrong well, you don't just give it up)
I am OK
(If something hurts well, you don't just run away)

I am always living way beyond my means
You have a sensible side that makes it way too hard
Together we just kind of put our heads down and say

I am OK
