Well, maybe I should call my mother up  
Trade this hell in for another  
I've just begun...  
And I'm in love with everyone

Look at me I'm heroin chic  
I'm a tape loop speech  
I suck my cheeks in when I'm done  
And I'm in love with everyone

My my my  
You could hang around  
My my my  
It's just a nervous breakdown  
My my my  
I'm always overestimating everything

I inhale  
And I'm in love with everyone

I'm so happy I could kiss me  
Sick of myself but I still miss me when I'm gone  
And I'm in love with everyone  
This day seems as good as any one  
To suck this insignificance into my lugs  
And I'm in love with everyone

My my my  
You could hang around  
My my my  
I'm always overestimating everything  
I inhale  
And I'm in love with everyone

Tell your friends, "It don't end"  
And I'm building my defense  
Tell your friends  
I'm overestimating everything  
I inhale  
(And I'm in love with everyone)

You could hang around

My my my  
It's just a nervous breakdown  
My my my  
I'm always overestimating everything  
I inhale...
