I won't waste your time
You were clearly right
This has been a nightmare

But, it's all that I have now
And it's all that I've lived for
So say it once more...
Say it's okay
To take this all the way home

You have so much will
To watch me self-destruct
And you alone rebuild me

You're all that I have now
And you're all that I live for
So say it once more
Say it's okay
To take this all the way home
Say it once more...
Say it's alright
To take this all the way
To take this all the way home
