o away, Go away from me and take your things with you

You can take away everything but you can't take the truth

Don't know when you'll come around

Again and again

Go! Go!

Let me be, let me be alone, without you I'll be fine

Never better since the letter came and took you off my mind

Don't know when you'll come around

Again and again

Go! Go!

Go away, Go away from me and take your things with you

You can take away everything but you can't take the truth

Don't know when you'll come around

Again and again

Go! Go!
