Where was I when your tears were falling
Where was I when you needed a friend
Where was I when your heart was calling
Do you not remember well I'll tell you then

You know I remain right by your side
Push through the rain and into the fire
'Cause when I said I loved you
Its just what i meant
So when you asked me where was I when
Every time I was right by your side

Where was my love when your heart was bleeding
Was it not enough just to be your man
when you had no feeling
where were my hands
you dont remember
well i'll tell you then

You know I remain right by your side

Push through the rain and into the fire
'Cause when I said I loved you
Its just what i meant
So when you asked me where was I when
Every time I was right by your side

Well, don't you know
That I give all the best of me
I've done it all
but you still don't want to see

that I remain right by your side
Push through the rain and into the fire
'Cause when I said I loved you
Its just what i meant
So when you asked me where was I when
Every time I was right by your side

Right by your side
Right by your side
I was right by your side
