She's been holding on too long  
Hoping I'm gonna change  
Giving it up just a little bit more  
Each time I come home  
Looking and acting strange  
Putting her down for putting up with me

(chorus)

Be as you are  
As you see as I am I am  
Be as you are  
As you see as I am I am

Do you think you might improve me  
Trying to take control  
Watching every little thing I do  
Just like a bleeding movie  
Just like a leading role  
Mama, this ain't me and I don't  
Believe that's you

- chorus -

First you make believe  
I believe the things  
That you make believe  
And I'm bound to let you down  
Then it's I who have been deceiving  
Purposely misleading  
And all along you believed in me

So we circle around one another  
Playing I guessing game  
Strangers at this masquerade  
Pretending to know each other  
We strain to catch a name  
And never see the mistakes we must have made

- chorus -
