Busses out everybody's walking,
Looking for a place to go,
Sun is out shining in places,
But the way they wanna go,
And it's time they made up their minds,
As to where they're going,
Cause there path is coming to an end

But I've got to let you know

That everywhere you go

People moving every direction,
And it's time we went to them,
But I've got to know where you are,
And now that we're gonna get moving
People got to make up there minds,
To be where we are

Rivers flowing everybody's talking,
About a place they really wanna go to,
But the ride aint that easy,
Crossing channels up and down the way path,
Making days up every time they go past,

Time speeding by

But they've got to get there

No matter how hard they try

People moving every direction,
And it's time we went to them,
But I've got to know where you are,
And now that we're gonna get moving
People got to make up there minds,
To be where we are

People moving every direction,
And it's time we went to them,
But I've got to know where you are,
And now that we're gonna get moving

People got to make up there minds,
To be where we are

Where we are

Where we are

Oh where we are

Where we are

To be where we are
