On the way  
From my house  
To your house  
It goes wrong

And things just start to move faster  
I just can't seem to slow them down  
I only want to make you feel this

The waters overhead  
Are closing in on us now  
I can't seem to catch my breath  
Just drink yourself dead, she said in jest

On the way  
From my life  
To the grave  
I thought

I just can't seem to make it happen  
The music lifts me when I'm down  
It heals the wounds that bleed inside me

The waters overhead  
Are closing in on us now  
I can't seem to catch my breath  
Just drink yourself dead, she said in jest
