Slowly, swinging back and forth as I attempt to  
disbelieve  
Softly, the wind breaths in and out as if to keep my  
lungs working  
Suddenly, a ringer of good memories come flooding  
back to me  
Safely, you were swept away leaving the pain to stay  
with me

Where, where do I go from here?  
Where, where do you go from here?

Slowly, sinking more and more into a state of  
wretchedness  
Softly, voices whisper words that make the pain hard to  
forget  
Suddenly, they take you away and make the way to  
where you'll sleep  
Safely, a way to rest I can't forget the moment you left  
me

I watched you fall  
I lost it all  
Now you're far away  
And now the ground  
Separates us  
And keeps you safe  
We were never meant for this day  
We were never meant for this place with  
No ambition  
You were never meant for this day  
You were never meant for this place with  
No remission

Now I'm waiting  
Always waiting  
With your patience  
Commemorating

I watched you fall  
I lost it all

Now you're far away  
And now the ground  
Separates us  
And keeps you safe  
We were never meant for this day  
We were never meant for this place with  
No ambition  
You were never meant for this day  
You were never meant for this moment
