

Jamestown Story

"Hold Me"

Visit "[Hold Me](#)" on MotoLyrics.com

The things we face each day are becoming more
intense
The never ending battle, with things that make no
sense
The constant pressure from our parents, to succeed
But we don't know where to turn to, we don't know who
to believe

Problems keep happening from our brain down to our
hearts
When everything that you have just seems to fall apart
When giving up seems like it's the only thing to do
But with you here I'll get through...

Hold me, closely to you...
Don't leave, we'll make it through...

Just don't let go, the future awaits
With all the problems in this world it's hard to
concentrate
Stay in control, do the best you can
Someday you will find someone to lend their loving
hand...
