

Jamestown Story

"Summer"

Visit "[Summer](#)" on MotoLyrics.com

Just so long as this moment's full of love so will the
leaves stay green
As the winters tide will knock them down from all that
they've achieve
Maybe if I love you harder, maybe if we both love
harder we can make the
summer last and toss the chills of winter farther.

Make this last, if there's one thing I could ask of you is
don't hold back tonight
take what's left, and hold on to it like I do you
Cause we gotta, we gotta find a way, come on baby

Its so obvious we both need this much like the comfort
of our kiss, we
need the warm air at our backs or forever will we miss
these summer
nights these summer days spent in each others arms
looking for a way for us to stay here not apart

Don't hold back, as the night tries to take all our
progress away
Don't hold back, as the summer sun fades into winters
cold haze, whoa-oh
Don't hold back, cause we've got to hold on, yeah I've
got to hold on to
you....
