Just got to be with you
No substitute will do
Just got to hold your hand
Feel the scars there within
Look at all the love you poured out for me
Look at all the love the blood
And tears that flood down for me
Beautiful Lovely Jesus (2x's)
Whatever is true and noble
Whatever is right
Whatever is admirable
Whatever is right
If anything is excellent
If anything is worthy of praise
If anything is pure and lovely
Think on these things
Think on me
Think on these things
Think on me
Think on me
Think on me
