Hello Innocence  
Though it seems like we've been friends for years  
I'm finishing  
How I wish I had never begun  
Though it should be the last one  
And it's dragging me down to my knees  
Where I'm begging you please

Let me go  
Don't you know

I'm all over it now  
And I can't say how glad I am about that  
I'm all over it now  
Cause I worked and I cursed and I tried  
And I said I could change and I lied  
Well there's something still moves me inside

She's a melody  
That I've tried to forget but I can't  
It still follows me  
When I wake in the dead of the night  
And I know that I can't find  
That song going round in my head  
Like the last things you said

Please don't go  
You think I know  
I'm all over it now  
And I can't say how glad I am about that  
I'm all over it now  
Cause I worked and I cursed and I cried  
And I said I could change but I lied  
Well there's something still moves me inside

Though I walked on by  
Though I walked on by  
Though I walked on by  
Though I walked on by

One dark morning  
She left without a warning

And took the red-eye back to London town

I'm all over it now

I'm all over it now

I'm all over it now

I'm all over it now

I'm all over it now

And I can't say how glad I am about that

I'm all over it now

Cause I worked and I cursed and I cried

And I said I would change but I lied

Yeah there's something still moves me inside
