Yeah ladies, I know you tired of the same old thing  
Things have become so mundane  
I mean your bedroom is just so cold  
It's so cold but I'm here to tell you  
I got a strategy, we 'bout to heat it up, come on  
(I like that)

Girl, get comfortable  
We 'bout to do something you never done before  
Baby, not the usual  
Tonight we gettin' unpredictable

So try to roll wit me, baby, baby  
I'ma make you feel like you never felt  
Girl, all because you let me get unpredictable

Baby, one plus one ain't two when you wit me  
'C' ain't after 'A' and 'B' when you wit me  
It don't make sense right now but it will  
Later on when you see how I make you feel

'Regular' ain't in my vocabulary  
When it comes to love makin', neither is 'missionary'  
Positions girl, pick one, better yet some  
Never mind that we tryin' all of them

So girl, get comfortable  
We 'bout to do something you never done before  
Baby, not the usual  
Tonight we gettin' unpredictable

So try to roll wit me, baby, baby  
I'ma make you feel like you never felt  
Girl, all because you let me get unpredictable, yeah

I know you're used to dinner and a movie  
Why not be my dinner, while makin' a movie?  
Do you get it get it, do you got it got it?  
Good, good, good, girl, I knew you would

See, what I got over a lot of fellas is that I'm more  
creative

And soon you will see what I mean, what I mean

So girl, get comfortable  
We 'bout to do something you never done before  
Baby, not the usual  
Tonight we gettin' unpredictable

So try to roll wit me, baby, baby  
I'ma make you feel like you never felt  
Girl, all because you let me get unpredictable

All aboard the Spontaneous Express  
Never the less, always the more  
From the pool table to the kitchen floor  
Next stop's the G spot Luda  
(I like that)  
I like it too, baby

Let me put a little bit of excitement up in yo' lifestyle  
You gotta know that time's of the essence, I'm talkin'  
right now  
I can get, get rid of that headache, what you doin'  
tonight?  
Some say that sex is overrated but they just ain't doin'  
it right

I keeps it interestin' baby, just take them clothes off  
I'll be yo' Tylenol just take me till you dose off  
Wake you up in the middle of the night and take you to  
another world  
You'll wake up in the mornin' feelin' like another girl

Girl, get comfortable  
We 'bout to do something you never done before  
Baby, not the usual  
Tonight we gettin' unpredictable

So try, so try, so roll wit me baby, baby  
I'ma make you feel like you never felt  
Girl, all because you let me get unpredictable
