Help me to sleep
I breathe but don't sink
I can't undo what I've done
Let sleep drug me
Oh please, oh please, oh...

Take me home
To lounge around
Take me home
Oh, whoa, oh...

I don't like I don't like this place
(I'm not afraid of you)
I don't like I don't like this place
(I'm not afraid of you)
I don't like I don't like this place
(I'm not afraid of you)
I don't like I don't like this face
(I'm not afraid)

Help me, I'm weak
I dove too deep
I can't recall what I've done
But I'll never speak
Don't tell, don't tell, don't...

Take me home
To lounge around
Take me home
Oh, whoa, oh...

I don't like I don't like this place
(I'm not afraid of you)
I don't like I don't like this place
(I'm not afraid of you)
I don't like I don't like this place
(I'm not afraid of you)
I don't like I don't like this face
(I'm not afraid)
