(verse 1)

....a faygo swipe  
kinda shit you hang onto in life like good advice  
and my vice is in my music  
and through it i vent  
my anger and fear and the love for the shit i represent  
im a self employed and certifiable freak  
with the money to hit the studio and stay the whole  
week  
im sick of candle prescribed medication correct  
its so fucked i accept it im demented its insane  
but i know instead of flowers growing  
i continue to smoke every last one thats cut and rolled  
im to old for this shit?  
but man im just a pup  
fresh out my daddy's nuts, now thats whats up  
on point like pencils  
sharpen my skills and mentals  
so i can dominate the instrumetals  
im monumental, iconic, and statuesque  
with you other silly bitches silly puddy at best

Chorus (2x)

im glidin and wildin, ridin, floatin, coastin, im bout to  
catchem  
get em and get em  
im bout to get em and get em
