When the fighting's done
And the race is run
When there's nothing left to say
If I broke your trust
It was only just
'Cause I couldn't find my way
Let the bad times go
Let the river flow
We don't have to play that game
Don't even go there
Don't even go there
It doesn't matter who's to blame
When the truth is out
And there ain't no doubt
That we let things go astray
We can walk on by
Or give it one more try
There could be another way
Yeah, let the bad times go
Let the river flow
We don't have to play that game
Don't even go there
Don't even go there
It doesn't matter who's to blame
Oh, let the bad times go
Let the river flow
We don't have to play that game
Don't even go there
Don't even go there
It doesn't matter who's to blame
Yeah, let the bad times go
Let the river flow
We don't have to play that game
Don't even go there
Don't even go there
It doesn't matter who's to blame
Don't even go there
Don't even go there
