I wanna live in the moment  
Like there's nothing that I lack  
I wanna give like there's nothing to lose  
And no reason to look back

Not so You will love me  
Not so You will love me  
Not so You will love me  
But because You do

There's no way to impress You  
There's no grace I can earn  
Help me to see that my life is a gift  
I can give in return

Not so You will love me  
Not so You will love me  
Not so You will love me  
But because You do

Because You do  
I don't have to prove a thing  
Because You do  
I am free

Where there's suffering I'll bring comfort  
Where there's wandering I will guide  
Where there's judgment I'll show mercy  
Where there is darkness I'll be light

Not so You will love me  
Not so You will love me  
Not so You will love me  
But because You do, oh

Not so You will love me  
Not so You will love me  
Not so You will love me  
But because You do, because You do  
Because You do
