Visit "[Darkness, Tells Us](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We know all your dirty secrets  
We have read your diary  
Mom and Daddy I'm so happy, Oh no  
In this house you are afraid  
In this house you are a slave  
In your dreams you runaway  
Away

Are you here with us tonight  
If you are give us a sign  
Through the spirit board tonight  
We will reach the other side

And when she takes a drink she'll know  
That there are no such thing as ghouls  
And when she screams my name  
She swear that she was right  
But she was all so wrong

Are you here with us tonight?  
If you are give us a sign  
Through the spirit board tonight  
We will reach the other side

(Under the darkness, it's waiting for you. It's there, all  
you ever wanted)

Are you here with us tonight?  
If you are give us a sign  
Through the spirit board tonight  
We will reach the other side
