

Calabrese "Eyes Down"

Visit "[Eyes Down](#)" on MotoLyrics.com

Eyes down, eyes stare
Watch your footsteps, watch your back [x2]

Bloodless lips they watch the sky as it unfolds
Creep alone with us tonight
Catch a glimpse and leave it all behind
Can't ever understand, wont ever understand

Eyes down, eyes stare
Watch your footsteps, watch your back [x2]

A dark cloud hangs over you
You seem to call it there
You only talk to ghosts
When the living do not care
It's midnight and your haunted
A black cat in your path
Anything can happen and it probably has

Eyes down, eyes stare
Watch your footsteps, watch your back [x4]
