"Just Like You"

Visit "[Just Like You](#)" on MotoLyrics.com

Oh my god its true I'm just like you
losing my cool, I think I'm so smooth
I just need to know
how you do it
keep me reeling
keep me high on you
Breaking me down
one day at a time
I need to find
some other way, yeah
why can't you see
a thousand stars like me
each one a question mark
wondering where do I start
I just need to know
how you do it
keep me reeling
keep me high on you
I'm miles away
out on my own
I'm all alone
I like that way
I just need to know
how you do it
keep me reeling
keep me high on you
I just need to know
how you do it
keep me reeling
keep me high on you
