Sitar singing on the operation  
And people say they can't walk out  
I remember you walking in  
That's why you got this door looking lock stock

Oh, in the olden days my time  
Seems to be running away  
Singing up songs of the rights and wrongs  
Oh, don't expect anymore from me

To all the dead people, especially out to Diego  
A friend and with the criminal intention about a liaison  
To all the dead people, especially out to Diego  
A friend and with the criminal intention about a liaison

Take your problem to United Nations  
Tell old Kofi about the situation  
Tell him how you left the whole congregation  
Sitting in the pews, in the pews, all alone

Have a go heroes shutting the young door locked  
Sitting it down with socks?  
For the breaks of the no go zero  
Kicking it down, don't want to raise  
Diggin' up, diggin' the ways, have a good luck  
I ain't no abacus but you can count on me

To all the dead people and especially out to Diego  
A friend with the criminal intention about a liaison  
To all the dead people and especially out to Diego  
A friend with the criminal intention about a liaison

Take your problem to United Nations  
Tell old Kofi about the situation  
Tell him how you left the whole congregation  
Sitting in the pews, in the pews, all alone

Gonna take your problem to United Nations  
Tell old Kofi about the situation  
Tell him how you left the whole congregation  
Sitting in the pews, all alone, all alone

Gonna take your problem to the United Nations  
Take your problem to the United Nations  
Take your problem to the United Nations  
Tell old Kofi about the situation

Is it a way, out of the day  
Calling yourself out to kingdoms?  
Is it a time, singing the lines of all border line  
Time it has passed being the last  
To enter the race for the future

Past oh, fast and fast is thin  
And that's why we're withering  
So good is the bad  
The ugly left with your face in the morning

You screamed at my back, told her just jack  
About you lived on the weekend  
Killers in mist, told you about it  
Years before you answered  
The whole of the point  
The real the day is passing now you're finished

You scream like nothing's wrong  
Sons of silence sings them songs  
Out loud for the reservation

It's all thriller, no filler  
And a beat came out the line, three or four times  
This is the first time that you'll say  
So filler or a thriller

Filler or a thriller  
Filler or a thriller  
Filler or a thriller  
Filler or a thriller

Two lost boys in the lost town  
Two lost girls in the lost and found  
I'll find you out when you hit the ground  
Don't stop moving girly, dance around

Two lost boys in the lost town  
Two lost girls in the lost and found  
I'll find you out when you hit the ground  
Don't stop moving girly, dance around

Two lost boys in the lost town  
Two lost girls in the lost and found  
I'll find you out when you hit the ground  
Don't stop moving baby, dance around

So you scream like nothing's wrong  
Sons of silence sing them songs  
Out loud for the reservation  
It's all thriller, no filler

And the beat came out the line  
Three or four times  
It's the first time that you'll say  
So filler or a thriller
