### "Here Today, Gone Today"

Visit "[Here Today, Gone Today](#)" on MotoLyrics.com

A simple little harmony  
Can change the world for me  
Give me light so I can see

Nothing can change anything anyway  
Here today, gone today  
No one has time to pull  
Their head from the ground  
No one stops to look around

When everything's hard at the end of the day  
Your favourite song takes your cares away  
We used to sing sandman, my mother and me  
And things were good as they could be

A simple little harmony  
Can change the word for me  
Brighten a bad day, make me believe  
Life is not as bad as it could be  
A lyric and a melody

A simple little harmony  
Can change the world for me  
Give me light so I can see  
Here today, gone today
