"Nobody But You"

Visit "[Nobody But You](#)" on MotoLyrics.com

When I'm in trouble and I need someone
Who knows my secret heart, there's nowhere to run,
baby
But straight to your arms and you hold me in the dark

Something inside me starts to move
And I know I can put my faith in you

Nobody but you, nobody but you
Nobody but you, nobody but you
It's one of those lonely days

In this lonely world the signs are so hard to see
Just show me the way now to get back to you, girl
That's where I need to be, something inside me starts
to move
And I know I can put my faith in you

Nobody but you, nobody but you
Nobody but you, nobody but you
It's one of those lonely days

Something inside me starts to move
And I know I can put my faith in you

Nobody but you, nobody but you
Nobody but you, nobody but you
It's one of those lonely days
