Look can you see it, everyone?s try to say
Time to call it a day
Hard to believe I know that you really feel what you?re
doing?s ok
Go for a plane ride, get your ass outside where folks
don?t see things that way
I must admit I haven?t been blown away by the things
that you say

You?re compromised and everyone knows it
You had a chance it looks like you?ve blown it
Tested and cloned it

Enough is enough, I think that it?s time to rain on your
stinking parade

Oh say can you see the land of the
free's become something it shouldn?t be
Check in the kitchen something is stinking in the home
of democracy

You?re compromised and everyone knows it
You had a chance it looks like you?ve blown it
You had no right to sit where you?re sitting
Your plastic smile is covered in shit and...

Don?t look so surprised, open up your eyes
What?s the difference between lies and lies
You got the best of things handed on a plate
But the only thing you do is send kids to die
So wake up son, you?re having so much fun
There?s plenty of money for everyone
So watch your back cos we?re coming to rain on your
parade

Look can you see it, everyone?s try to say
Time to call it a day

You?re compromised and everyone knows it
You had a chance it looks like you?ve blown it
Your heads in the clouds there's

no silver lining
Doing your nails while children are dying
Look what you've done you think you're the top gun
Watch for the bullets, maybe you'll stop one
