What's going on, what's this mean?

This is crazy

Plagus time in New Orleans

This is crazy

We are here, we are one

But until something's done

Thing's are wrong

We're under the gun

Sometimes my head starts to burn

This is crazy

When is this worm gonna turn?

It's not easy

Wood's giving way to the trees

Telling lies int he TV screens

Show me someone I can believe

Who cares what this people need

We're all living under this sun,there's nowhere tor un

We're under the gun

Why can't you leave us alone?

Please don't sav eme

Plenty of problems at home

Not just lately

We are here, we are one

We're under the gun

(We don't need you here)
