Good things come to those who wait
My love is just the same
You're gonna have to understand
A kiss goodnight is all you get
No, no you can't come in
I know you want to
Read my lips

You can cry cry baby baby all you want
You can try try but im gonna tell you to stop
Gonna make you wait, baby baby like it or not
There's a right time, but not tonight
You can cry cry baby if you want to
You can try try but you know it ain't no use
At the right time, gonna give it all to you
Until that time..
Baby cry baby cry

I know what you got in mind
All good things come in time
Youre gonna have to prove your love
Before i let you inside my heart
That time is not too far
We're gonna get there
No need to rush

You can cry cry baby baby all you want
You can try try but im gonna tell you to stop
Gonna make you wait, baby baby like it or not
There's a right time, but not tonight
You can cry cry baby if you want to
You can try try but you know it ain't no use
At the right time, gonna give it all to you
Until that time..
Baby cry baby cry

And I don't care what you say (no i don't)
Cause you're just gonna have to wait
You can cry like a little boy
That won't change a thing
Cause I don't care what you do

when it comes to me and you
If you wanna make it right
Take your time
If you wanna be mine
be mine baby

You can cry cry baby baby all you want
You can try try but im gonna tell you to stop
Gonna make you wait, baby baby like it or not
There's a right time, but not tonight
You can cry cry baby if you want to
You can try try but you know it ain't no use
At the right time, gonna give it all to you
Until that time..
Baby cry baby cry

You can cry cry baby baby all you want
You can try try but im gonna tell you to stop
Gonna make you wait, baby baby like it or not
There's a right time, but not tonight
You can cry cry baby if you want to
You can try try but you know it ain't no use
At the right time, gonna give it all to you
Until that time..
Baby cry baby cry

You can cry cry baby baby all you want
You can try try but im gonna tell you to stop
Gonna make you wait, baby baby like it or not
There's a right time, but not tonight
You can cry cry baby if you want to
You can try try but you know it ain't no use
At the right time, gonna give it all to you
Until that time..
Baby cry baby cry baby
