I've got a lot of juice
I need to put to use
Let's bring this highway down

I'm going from Z to G
When it should be A to B
Nose so low it just scrapes the ground

Can't you see me over taking?
All the while I'm salivating
Won't you let me
Push a little thrust up you?

She loves riding around
In my black devil car
I can't hear a sound
Because her foot's pushing down too hard

And white angels cry
For her black devil heart
She wants me to stop
She should never let me start
She should never let me start

Talking to all those pretty girls
That I meet around the world
Her name was Gina
You should have seen her

She had the greenest eyes
And with those endless thighs
I've put my hands through
Some misdemeanors

Can't you see me, I'm not choosy?
You drive a black machine
And I think you're groovy
Won't you let me
Take a little ride with you?

She loves riding around
In my black devil car

I can't hear a sound
Because her foot's pushing down too hard

And white angels cry
For her black devil heart
She wants me to stop
She should never let me start
She should never let me start

She's just a love machine
She's just a love machine
She's just a love machine
She's just a love machine

Ooh, riding around
In my black devil car
You know I can't hear a sound
In my black devil car, yeah

Babe, you know
You got such a tight machine
Now let me drive your dream
Until your tank is dry

I'm shooting from the hip
Not running out of clips
Flames of love and licking high

You know she'll always be running free
A hot freewheeling honey bee
Won't you let me
Push a little thrust up you?
That's what I wanna do

Riding around in my black devil car
I can't hear a sound
Because her foot's pushing down too hard

And white angels cry
For her black devil heart
She wants me to stop
She should never let me start
She should never let me start

Strapped down, wrapped around
Breaking up the speed limits
Red lights, crazy nights
Hope she's coming back with it

Super charged devil queen
Stepping in my love machine

Twisted my metal
On the highway of desire

She's easy rindin' super flyin'
'95, it's still green
High heels, shiny wheels
Looking for a tight squeeze

Rocket fuel and jet juice
Now she's getting real loose
Can't stop, black heart
She should never let me start

She's just a love machine
She's just a love machine
She's just a love machine
She's just a love machine

She's just a love machine
She's just a love machine
She's just a
