I'll fight for the Moon, Mars, Jupiter  
And outer galaxy, Alpha Centauri

Feels good  
I'm stranded on a spaceship hideaway  
And something makes me think I'm here to stay  
I'm so happy where I am

Feels good  
I've journeyed to the other atmospheres  
And every breath I take just makes it clear  
I'm holding Heaven in my hands  
It's automatic baby and it

Feels good  
When it feels so good  
Feels good  
When it feels so good

Feels good  
These extra-sensory sensations  
Are causing me some complications  
Electrostatic information

Feels good  
I'm playing with a pleasure trafficker  
Arriving soon intergalactica  
I'm holding Heaven in my hands  
It's automatic baby and it feels good

Feels good  
Feels good  
Feels good

Feels good  
When it feels so good  
Feels good  
When it feels so good

Feels good  
When it feels so good  
Feels good

When it feels so good

Feels good  
Feels so good  
Feels so good  
Feels so good

Feels good  
Feels so good  
Feels so good  
Feels so good

Feels good  
I'm stranded on a spaceship hideaway

Feels good  
When it feels so good  
Feels good  
When it feels so good

Feels good  
When it feels so good  
Feels good  
When it feels so good

I'll fight for the Moon, Mars, Jupiter

Feels good  
When it feels so good  
Feels good  
When it feels so good

Feels good  
When it feels so good  
Feels good  
When it feels so good
