And now she's stinging in the rain  
'Cause she's got so much to give  
And I still don't know her name  
But I really wish I did

There's a magic in her moves  
And bet you never knew  
Come on, stand here for a while  
She'll be standing into you

I love it when you get on down and hurt me babe  
On your knees, once again  
She's a fast persuader, out of space  
Escalated to elation any place

Girl's got crazy rhythm  
She's coming from a stranger place  
All wrapped up in music  
With a star gaze on her face  
She got it

Straight ahead, you and me, something I can't hold  
forever  
Love it when she's tearing up the brakes  
She's a dream, fantasy, I don't need too much  
persuading  
Give her all the heart she wants to take

Now and then I wonder why cupid shot me with his  
arrow  
See my wings are melting near the sun  
Got my head in a spin, there's no job that she's begun  
to

Get on down and hurt me, babe  
On your knees, once again  
She's a fast persuader, out of space  
Escalated to elation any place

Girl's got crazy rhythm  
She's coming from a stranger place  
All wrapped up in music

With a star gaze on her face  
She got it

I love it when you get on down, work me, babe  
On your knees, once again  
She's a fast persuader, yeah, out of space  
Escalated to elation any place

Girl's got crazy rhythm  
She's coming from a stranger place  
All wrapped up in music  
With a star gaze on her face  
You know she's got it

Come on down, come on, work me, baby  
And she never ever gonna let it go  
Come on down, come on work me, baby  
Come on down, come on work me, baby  
Come on down, come on work me, baby

Yeah, I'm traveling at the speed of light tonight, baby  
Yeah, I'm traveling at the speed of sound  
And now, yeah, I'm traveling at the speed of light  
tonight, baby  
Yeah, I'm traveling at the speed of sound  
And now
