I didn't have time for school  
Spent my days breaking the rules and regulations  
And in-between they're having fun  
The teachers told me son, get me an education

So I had my bout of freedom  
Dressed like a man through four seasons  
Hey I'm steppin' out so cut me loose  
And as mama waved goodbye tears were welling in her  
eyes  
She don't need them I turned to her and said

I've got my soul education  
You know its stitched into the clothes that I wear  
Got my life information  
Upon the breeze that's blowing through my hair

Got a pocket full of rainbows  
Oh and a sky to put them in so blue  
So let the music come and save you  
I found a God that I can pray to deep inside my soul,  
hey

See your mad you can't delude  
That there is no substitute for intuition it's no  
superstition  
So if you find your petrified to let some natural law  
apply  
Then there's a whole lot missing baby yeah

So you know I'm blessed celestially  
Got a direct link with destiny yeah  
Don't ask me why I'm in the sky  
If there's green wax in your eye

Some things money just can't buy, hey  
Rags to riches, babes to bitches  
But the ride don't mind cause I got my

I've got my soul education  
You know it's stitched into the clothes that I wear  
I've got my life information

Upon the breeze that's blowing through my hair

Got a pocket full of rainbows  
And a sky to put them in so blue  
So let the music come and save you, yeah  
I know I found a God that I can pray to deep inside my  
soul, hey

I've got my soul education  
You know it's stitched into the clothes that I wear  
I've got my life information, yeah  
Upon the breeze that's blowing through my hair

I know I've got a pocket full of rainbows  
And a sky to put them in so blue  
So let the music come and save you  
I know I found a God, I know I found a God that I  
I know I found a God that I can pray to

So let the music come and save you  
I know I found a God, I know I found a God that I can  
pray to, yeah

I know I got my soul education
