My head's under pressure baby  
Life's the same  
It's a suicidal incubator that's killing my brain  
There must be some sonic infiltrator making the strain  
See I'm a high-pressure operator  
In case the same

Stop don't panic, it's just a thing I do  
Its not so tragic, nothing to hold on to  
I'm like a tiger in a cage so I'm afraid  
How do I stop this crazy rage  
I'm not so cool about my own route

I'm gonna hit my switch and fly through

Stop, don't panic, it's just a thing I do  
Its not, so tragic, nothing to hang on to  
Stop don't panic, it's just a thing I do  
It's not so tragic, nothing to hang on to  
Something I hang on to

It's just a thing I do  
Nothing to hang on to  
Stop, It's just a thing I do  
Nothing to hang on to  
It's just a thing I do  
Nothing to hang on to
