I chronicled the days you made me want to live
Memorize the way that it felt and then I target into this
kiss

Tonight I'm wearing my best smile
And hope to make me worth your while
I'll be the best mistake you'll ever make

From the lack of sleep and the bloodshot eyes
To the nervous kiss and the butterflies
Does this make any sense at all
She said, she said

We're not sleeping, and I'm not breathing
If this means anything at all
I won't let you leave me anymore

If this holds insignificance
I'll have the hearse follow the ambulance
No medicine exists to make my lungs work again

Let's shake and burn, like an addict
My hearing's dead, only static
If I said, your smile's all that mattered
Would you save my life?

We're not sleeping, and I'm not breathing
If this means anything at all
Don't let me leave you anymore

We're not sleeping, and I'm not breathing
If this means anything at all
Don't let me leave you anymore

We're not sleeping, and I'm not breathing
If this means anything at all
Don't let me leave you anymore

We're not sleeping, and I'm not breathing
If this means anything at all
Don't let me leave you anymore

Don't let me leave you anymore
