Just be in love  
And I'll kiss you like you've always wanted?  
Just close your eyes,  
I'll still live as if I'm dyin'??If I don't make your heart  
skip a beat then hate me'If I don't make you feel  
anything than it's me??I just want you to feel  
beautiful'For once in your life?(2x)??Just close your  
eyes  
And I'll kiss you like there's no tomorrow??If I don't  
make your heart skip a beat then hate me'If I don't  
make you feel anything than it's me??I just want you to  
feel beautiful'For once in your life?(2x)??So sleep now,  
So deep in static, drifting in the shadows'Hold me  
close  
To the fourwall headlights and TV screens??  
So sleep now (I just want you to feel)  
So deep in static, drifting in the shadows (beautiful)?  
Hold me close (for once in your life)

To the fourwall headlights and TV screens

So sleep now (I just want you to feel)  
So sleep now (beautiful)  
So sleep now (for once in your life)
