Facin' your front door?
The one you hide behind?
Your fight with bedroom eyes?
Well, I proudly wear mine?
The entrance that I make?
Will fall so short of grace?
A hopeful knock sounds tired?
Before my hopeful plans?
You put your hand in mine?
It fits so perfectly?
Your whispers between kisses?
Show me all that I could be??
Please me make me not so crazy?
Make me fall apart?

Make me think beautiful, unexpected thoughts?
I should mean more??
I trace every curve?
On your precious face?
And pray someday you'll beg me?
To beg you, "Run away"??
Please me make me not so crazy?
Make me fall apart?
Make me think beautiful, unexpected thoughts?
I should mean more??
I should mean more (3x)
