## "Best Mistake"

I chronicled the days you made me want to live  
Memorize the way that it felt and then I target into this  
kiss

Tonight I'm wearing my best smile  
And hope to make me worth your while  
I'll be the best mistake you'll ever  
make

From the lack of sleep and the bloodshot eyes  
To the nervous kiss and the butterflies  
Does this make any sense at all  
She said, she said

We're not sleeping, and I'm not  
breathing  
If this means anything at all  
I won't let you leave me anymore

If this holds insignificance  
I'll have the hearse follow the ambulance  
No medicine exists to make my lungs work again

Let's shake and burn, like an addict  
My hearing's dead, only static  
If I said, your smile's all that mattered  
Would you save my life?

We're not sleeping, and I'm not  
breathing  
If this means anything at all  
Don't let me leave you anymore

We're not sleeping, and I'm not  
breathing  
If this means anything at all  
Don't let me leave you anymore

We're not sleeping, and I'm not  
breathing  
If this means anything at all  
Don't let me leave you anymore

We're not sleeping, and I'm not  
breathing  
If this means anything at all  
Don't let me leave you anymore

Don't let me leave you anymore
