So what happens in your room
when youre all alone
with me at home going crazy over you
behind these bedroom walls
every night I sing along
with all her favorite songs
I sing until my voice is gone
until my lungs are bleeding
tell me you don't miss these brown eyes
and that you're not in love.

Chorus:

Take this stupid heart
I know it's all you ever want me for
and I hope you keep it close
so that everyone knows
that it's all because of you
that im dead to the world
I hate the way you look at me
wheres the pills that cure that thing
that you call sweeping me off my feet
it's girls like you that keep open graves

for boys like me that keep themselves locked up for
days

behind these bedroom walls

every night I sing along

with all her favorite songs

I sing until my voice is gone

until my lungs are bleeding

tell me you don't miss these brown eyes

and that you're not in love.

Chorus

I won't wait for you to make me stop.

behind these bedroom walls

every night I sing along

with all her favorite songs

I sing until my voice is gone

until my lungs are bleeding

tell me you don't miss these brown eyes

and that you're not in love.

*Chorus(2)
