I spend more time  
Trying to breathe  
I keep my eyes closed  
You're too far away from me  
You're so far away from me

I spend more time  
Tracing your face  
Wearing away my finger prints  
You're so far away

We could stay up forever  
No one sleeps 'til my voice finds your ears  
Your last kiss was something more like shrapnel  
Tearing through me

I spend more time  
Speaking through wires  
Living in circuits  
You're so far away

We could stay up forever  
No one sleeps 'til my voice finds your ears  
Your last kiss was something more like shrapnel  
Tearing through me

Tearing through me, tearing through me  
Tearing through me, tearing through me  
Tearing through me, tearing through me
