Ooh... I feel like doing something different tonight  
I wanna give you something that will make you feel  
alright  
I got what you need now baby won't you tell me what  
you like  
I'm gonna put that something something on you  
Baby don't you fight

I'm your dirty girl we can do it all day  
I'm the freaky nurse let me make you feel better my  
way  
I'm the schoolteacher teach you maybe one or two  
things about me  
Let me be your lil mama spank you when you naughty  
That's the way I like to do it when we roleplay

No games let me know if you think we can get it tonight  
Yeah baby I'm gonna have your dreams fulfilled  
tonight  
Ooh let me be whatever you want me to be  
Just take it don't you know your queen is here to please

Maybe baby on the roof underneath the stars  
Maybe bouncin in the backseat of the car  
Would you like a twirlin girlie on the stripper pole  
There's no limit to the things or the way I go  
I can be your main feature, teacher, wifey, be your  
fantasy  
Let me bring a new look baby give you what you need

I'm your dirty girl we can do it all day  
I'm the freaky nurse let me make you feel better my  
way  
I'm the schoolteacher teach you maybe one or two  
things about me  
Let me be your lil mama spank you when you naughty  
That's the way I like to do it when we roleplay

No games let me know if you think we can get it tonight  
Yeah baby I'm gonna have your dreams fulfilled  
tonight  
Ooh let me be whatever you want me to be

Just take it don't you know your queen is here to please

Gotta tell me what you wanna do baby  
In control or just taking orders maybe  
We can play doctor you can try to heal me  
I'm your favorite patient baby, now save me  
Maybe cops and robbers, maybe we can throw some  
dollars  
I'm your best student, gonna graduate with top honors  
Tell me baby what you need  
I'll fulfill that fantasy

I'm your dirty girl we can do it all day  
I'm the freaky nurse let me make you feel better my  
way  
I'm the schoolteacher teach you maybe one or two  
things about me  
Let me be your lil mama spank you when you naughty  
That's the way I like to do it when we roleplay
