Fall into my open arms tonight  
The waves will splash and some may crash around us

CHORUS:

So cold and bare  
A life worth living  
Why should I care?  
And want?  
I still keep driving I still keep driving

Taking chances with my advances I do  
Dance in spotlight is just what we might want to do

CHORUS:

So cold and bare  
A life worth living  
Why should I care?  
And want?  
I still driving I still driving

Silence and cheap tricks close minded feelings is all  
you are  
Then one day you realize that you are what you are

CHORUS:

So cold and bare  
A life worth living  
Why should I care?  
And want?  
I still keep driving I still keep driving on  
I keep driving on  
And I'll I keep driving on  
And I'll I keep driving on...
