Monster

How long
Have I been singing to you
So long tonight
Come down I've got a sinking
Feeling you know it's right
So how many ways, places,
Or times have you ever tried
To stop our rhyme

How long to wait
Had all your selfish ways
But I know it's all right

Don't run away just listen
Don't run away it's all right
Don't run away and just say goodbye tonight

Please, please
You've got me begging on my knees now for you
Trying
Sometimes it seems like I'm prying the truth
So how many ways, places, or times have you ever
tried
To stop our rhyme

How long to wait
Had all your selfish ways
But I know it's all right

Don't run away just listen
Don't run away it's all right
Don't run away and just say goodbye tonight
