Out From The Ashes

Constant resistance fighting to be
Out from the ashes to set myself free

A somber stale tone into my ear
So faint yet so clear
How long until I break down

But I want you to know
I'm standing alone in the sun
And you couldn't wait
It was over before it begun

Ignoring any rest because my head is mess
Daydreaming constantly
The world is mine to take
But I'm trying to stay awake
Open my eyes and silence
Your lies right now

But I want you to know
I'm standing alone in the sun
And you couldn't wait
It was over before it begun

Breathe and you'll fall
Complete withdrawal
It doesn't really make sense
Some sort of phrase
I'll count the ways of
How I felt for you

But I want you to know
I'm standing alone in the sun
And you couldn't wait
It was over before it begun
