I, I found a girl  
Anybody can see just by looking at me  
That I found a girl

Sun that never shined  
Is shinin tonight; I'm feelin groovy tonight  
Cause I found a girl

Bridge  
I used to go to parties all alone  
But now I can't see how  
I lived a life of misery  
But things are different now  
Cause I, I found a girl  
Who coincidently just happens to be  
In love with me

Stars that never shined  
Is shinin tonight; I'm feelin groovy tonight  
Cause I found a girl
