Each time I call you up, you're always free
You break the dates you've got just to be with me
Gee whiz, that's not the way it is
But that's my favorite dream

You tell me I'm the type you can't resist
Your lips are always there, ready to be kissed
Gee whiz, that's not the way it is
But that's my favorite dream

(x2):
We spend each night together
But you don't even know
'Cause in spite of all my dreams
Somehow it seems
I'd never even dare to say hello
But I believe my dreams may still come true
Someday you're gonna show that you love me too
Gee whiz, that's not the way it is
But that's my favorite dream

Gee whiz, that's not the way it is
But that's my favorite dream
