Let me stay the night and make believe before you
have to go, mmm...
Hold each other tight, let me touch you from inside, lay
down and let me show
I wanna tell you, wanna tell you how I feel inside
Love is blind, and time's runnin' out

Another night, oh ho... when we're together
And I know I have to let you go
Another night, oh ho... I wish forever
But I know I have to follow your heart

Tell me tender lies, whisper gently in my ear what
someone else will hear
I wanna tell you, gotta tell you how I feel inside
Words of love when time's runnin' out

Another night, oh ho... when we're together

And I know I have to let you go
Another night, oh ho... I wish forever
But I know I have to follow your heart

The river's runnin' dry of love, I have to follow your
heart

Another night, oh ho... when we're together
And I know I have to let you go
Another night, please stay, it could last in every little
way
And I know I have to follow your heart
Can't let you go
