You smiled
It helped me capture
Was no ordinary feeling
Sweet, ultimate, endless
You changed me forever
Awaken my passion

Theres no dark clouds in my world now
Theres no dark clouds only sunshine

Theres no dark clouds in my world now
Theres no dark clouds only sunshine

[Chorus]
I'll remember the summer forever
You took my lips
You took my hands
Took me to the ocean
Made love to me

I'll remember the summer forever
You took my lips
You took my hands
Took me to the ocean
Made love to me
In the water
Water
Water..

The ocean
Serenading us
Being grown ups in the sand
Sweet, ultimate, rapture
an aura of our moments
You aroused
My, passion

There's no dark clouds in my world now
There's no dark clouds only sunshine

There's no dark clouds in my world now
There's no dark clouds only sunshine

[Chorus]
I'll remember the summer forever
You took my lips
You took my hands
Took me to the ocean
Made love to me

I'll remember the summer forever
You took my lips
You took my hands
Took me to the ocean
Made love to me
In the water
Water
Water..

I'll remember
Always
Always..

Ohh I'll remember
Always
Always..

I'll remember
I'll remember
I'll remember
Forever

I'll remember the summer forever
You took my lips
You took my hands
Took me to the ocean
Made love to me

I'll remember the summer forever
You took my lips
You took my hands
Took me to the ocean
Made love to me

I'll remember the summer forever and ever
Always..
