Dirty cups keep on pilin' up
Won't be long until I'm trippin' over
Magazines I never take the time to read
There's enough for me to think about
To watch the news, what I don't know won't hurt me
Never stops, always another job to do
What's the whole world runnin' round in circles for?
That's all right, in the quiet I escape
Everybody's givin' less and takin' more
Grab your share, I don't care, I'm miles away
A little change left by the telephone
Just enough to keep myself from goin'
Down the drain there goes another day again
What's the whole world runnin' round in circles for?
That's all right, in the quiet I escape
Everybody's givin' less and takin' more
Grab your share, I don't care, I'm miles away
Miles and miles away
Miles and miles away
Down the drain there goes another day again
What's the whole world runnin' round in circles for?
That's all right, in the quiet I escape
Everybody's givin' less and takin' more
Grab your share, I don't care, I'm miles away
Miles and miles away
What's the whole world runnin' round in circles for?
What's the whole world runnin' round in circles for?
Dirty cups keep on pilin' up
