I'm through doin' what I used to do  
Sayin' what I used to say  
Lookin' for the easy way  
I'm through doin' what I used to do  
Takin' what I used to take  
Well here I am about to break  
It's too late, see us for what we are  
It's too late, but tellin' you is so hard  
'cause this time I'm through lovin' you  
This time I'm through lovin' you  
When the need is gone  
There's nothing left for us to lean on  
So blue, thinkin' of the times with you  
It's gonna take a lot of pain  
For me to ever love again  
It's too late, see us for what we are  
It's too late, but tellin' you is so hard  
'cause this time I'm through lovin' you  
This time I'm through lovin' you  
Don't wanna go on like before  
It just keeps hurtin' us more  
It's too late, see us for what we are  
It's too late, but saying it is so hard, it's so hard  
'cause this time I'm through lovin' you  
This time I'm through lovin' you  
This time I'm through lovin' you  
'cause when the need is gone  
There's nothing left for us to lean on  
I'm through
